4th Quarter News

Students have been very busy during the fourth quarter, with many exciting events still to come! With end-of-year testing concluded, we have a chance to stretch our brains with some exciting yet challenging learning activities.

Math Olympiad top scorers for 5th Grade will be announced at Graduation and all participating students will be recognized for their achievements. Fourth grade top scorers will be recognized at their end of year awards ceremony. We are so proud of all our hardworking Math Olympians!

The third and final WordMasters Challenge was held in April. Three 3rd Graders had perfect scores—Mitch Porter, Wilson Riley, and Ben Anderson! In the entire country only 180 third graders achieved at this level. Also

achieving outstanding results in the meet included third graders Jackie Jewel, Jack Stanley, Emily Zhao, Katie Craig and Michael Lazado. Our 4th Grade top scorers were Lindsay Greene, Julia Van Epps and Oskar Wolff. The high-scoring 5th Grader was Natalie Monzavifar. Wow—way to go! Our overall top ten WordMasters students will be recognized at the end of the year. Congratulations go out to all participants for their hard work and commitment.

The Math Bee will be held June 9th! A qualifying assessment was given in each 3rd—5th Grade homeroom. The top six scorers from each class will compete as a team for prizes and bragging rights! We look forward to the fun and friendly competition!

Amy always tells the truth on Mon, Tue, Wed, and Thurs. Bill always tells the truth on Mon, Fri, Sat, and Sun. On the rest of the days, they may tell the truth or they may lie. One day last week, Amy and Bill both said, "I lied yesterday." On what day did they make those statements?

Head to <http://www.moems.org/zinger.htm> for the answer!

The following site provides a link to many overnight and day camps in NC geared toward student interests and talents. <http://www.campchannel.com/North-Carolina/index.shtml>

The wisest mind has something yet to learn.
